MPAY Inc. Offers Free Payroll Data Conversion

Seamless data conversion provided by leading payroll provider

Nationwide- June 15, 2011- For a limited time, MPAY Inc., a nationally recognized provider in software and services to independent payroll and business service providers is offering FREE data conversion from any payroll software platform onto their Business Process Outsourcing (BPO) model. The BPO model is customizable to fit any providers' desired involvement while allowing payroll providers, CPAs, insurance brokers and other business service companies the opportunity to build a revenue stream and prove an invaluable asset to their client base when delivering superior payroll services.

"Many companies do not have confidence in their payroll software providers but have stayed complacent due to lack of manpower, finances or potential headaches," states MPAY CEO, Geoffrey Duke. "We're welcoming all payroll providers to jump on board our BPO platform for a firsthand experience with quality customer service, world class data centers and peace of mind. For a window of time, MPAY will offset the burden of costly conversion to anyone who has ever been hesitant in the past."

In addition to back office processing support, MPAY also supplies marketing and advertising resources to their BPO clients. With these tools and a trusted partner in payroll, MPAY clients have the time and energy to focus on running their business.

Contact MPAY to build a truly successful partnership today.

About MPAY's Programs

MPAY offers a complete spectrum of payroll products and related services directly to employers and through professional firms wishing to offer B2B services to their clients. MPAY's programs allow professional firms an opportunity to generate additional revenues from existing and new clients by adding products and services to their traditional services portfolio. MPAY's strategic partners gain access to a turn-key platform while MPAY manages the data processing and financial transactions for payroll services, time and labor management, and benefit plan administration.

About MPAY Inc.

MPAY Inc. was established in 1995 and provides payroll software, labor management systems and benefit administration services to over fifty-four thousand employers directly and through a national network of over 135 strategic partners. Strategic partners include some of the nation's leading payroll service bureaus, accounting firms, employee benefit brokers, financial institutions and human resource outsourcing (HRO) organizations. MPAY is a member of the American Payroll Association, Independent Payroll Providers Association, and The Payroll Group, and a partner with the Smaller Business Association of New England. MPAY has also ranked on the Inc. 5000 List of America's Fastest Growing Private Companies for the last four consecutive years.
